Braces are made of wires, brackets and bands which gently make the teeth to move in proper position. Different types of braces are available in the market that includes plastic braces, metal braces, ceramic braces and synthetic braces. X ray is widely utilized as a diagnostic tool for the detection of orthodontic abnormality in an individual. Other instrument and equipment which are involved during dental orthodontic surgery includes dental systems and equipment, dental lasers and dental radiology equipments. Dental system and equipment includes dental chairs, hand pieces, light cure equipment, scaling units and CAD/CAM systems. CAD/CAM systems comprise stand-alone scanners, full in-lab systems and chair-side systems.

Dental orthodontic products are included in a small category in the overall global dental supplies market, which grasp huge promise as growing numeral of patients come forward to look for orthodontic management for malocclusions. The growing necessitate to address dental issue due to jaw disease, jaw joint pains, tooth decay and malocclusions is encouraging patient to undergo dental orthodontic treatment. The increasing focus

on appearance improvement and aesthetics is also the prime refreshment for orthodontic treatments. Increasing penetration of procedures among the adult patient population as against the conventional base of teenagers is also expected to spur growth for orthodontic supplies.

Increasing incidence of dental diseases and rising demand for minimally invasive painless surgeries are the major reasons cited to affect the growth of dental orthodontic supplies market. Moreover technological advancement and favorable government initiative in some regions also fuelling the global dental orthodontic supplies market. High cost associated with dental treatment products and surgeries might restrict the global market demand of dental orthodontic supplies.

Geographically, North America accounts for the largest share of the dental orthodontic supplies market followed by the European region. The dominance of North America in this market is seen due to high demand for dental care in North American region followed by Europe. Moreover greater awareness about dental care is also accentuates the market growth in this region. European dental orthodontic supplies market follows the North American market due to extensive promotion and funding for oral healthcare facilities by the European government such as in Germany and in the U.K. Asia-Pacific region is expected to witness fastest growth rate in the near future due to rising population base and increasing awareness about the dental and oral health hygiene. Additionally, rise in dental tourism especially in countries like India, Singapore, Thailand and others coupled with rise in dental tourism are some of the other reasons responsible for growth in the Asian region. However, growth of this market might be restrained due to lack of proper reimbursement policies in the developed regions.

Some of the major players operating in this market includes 3M Healthcare Company, A-dec, Inc., BioLase Technology Inc Carestream Health Inc, Danaher Corporation, DCI International, GC Corporation, Dentsply International, Henry Schein, Inc., Midmark Corporation, Invoclar Vivadent AG, HU-Friedy, Patterson Companies Inc. This research report analyzes this market depending on its market segments, major geographies, and current market trends. Geographies analyzed under this research report include

- North America
- Asia Pacific
- Europe
- Rest of the World

This report provides comprehensive analysis of

- Market growth drivers
- Factors limiting market growth
- Current market trends
- Market structure

This report is a complete study of current trends in the market, industry growth drivers, and restraints. It provides market projections for the coming years. It includes analysis of recent developments in technology, Porter's five force model analysis and detailed profiles of top industry players. The report also includes a review of micro and macro factors essential for the existing market players and new entrants along with detailed value chain analysis.

Reasons for Buying this Report

- This report provides pin-point analysis for changing competitive dynamics
- It provides a forward looking perspective on different factors driving or restraining market growth
- It provides a six-year forecast assessed on the basis of how the market is predicted to grow
- It helps in understanding the key product segments and their future
- It provides pin point analysis of changing competition dynamics and keeps you ahead of competitors
- It helps in making informed business decisions by having complete insights of market and by making in-depth analysis of market segments
- It provides distinctive graphics and exemplified SWOT analysis of major market segments
